

When backing off a fastener did you ever wish you had a little more room? Now you do.

**112RT Set**

12 Piece 1/4" 12 Point Drive Fractional Low Profile Ratchet/Socket Set

**Features and Benefits for 112RT**

- Low profile sockets combined with 11mm Internal Hex Drive Ratchet work great in the tightest of areas.
- 72 gear teeth requires minimal movement in tight areas.
- Low profile easy-action reverse lever won't get in your way.
- Thin handle cross section allows for greater accessibility in tight quarters.
- Sockets can be used with 1/4" extensions or any 1/4" ratchet.
- Bolt clearance through hole.
- Manufactured from special alloy steel, precision forged and heat treated for optimum strength and durability.
- Nickel/chrome plating helps protect against corrosion and makes easy to wipe clean.
- 11mm hex on sockets adds flexibility where they can be used on any 11mm ratcheting wrench.

RTMBS8

**Related Item**

**ME7A224K** – Retaining ring found on each socket (retaining rings supplied in a package of 10)

**Features and Benefits for RTMBS8**

- Holds any 1/4" shank bit: fractional and metric hex bits, TORX®, and ball TORX®, Phillips and straight bits
- Fits in any 11mm ratcheting wrench.

See page 2, 3 and 4 for stock numbers with specifications in set including sockets and, applications and application shots, visual applications and warnings.
